TECHNICAL SKILLS

Java • Python • C++ • JavaScript

TypeScript • HTML • CSS

React • Next.js • Vite

Tailwind • Framer Motion • Three.js

Node.js • Express.js • REST APIs

PostgreSQL • MongoDB • Redis

Firebase • Neon

Google Gemini • OpenAI API

LangGraph • Google Drive API

Git • GitHub • Docker • Vercel • VS Code

CORE STRENGTHS

Full-Stack Development

AI & LLM Integrations

RESTful API Development

Problem Solving & DSA

UI/UX & Modern Web Design

Clean Code & Engineering

Team Coordination

INTERESTS

Artificial Intelligence

Full-Stack Development

3D Web Technologies

Open Source

Software Engineering

Ali Rashid

AI Enthusiast & Full-Stack Developer

BS Computer Science student at the University of Engineering and Technology (UET) Taxila, passionate about Artificial Intelligence, Full-Stack Development, 3D Web Technologies, and Software Engineering. I build modern, user-focused applications that combine intelligent AI capabilities with practical product experiences.

EDUCATION

BS Computer Science

University of Engineering and Technology (UET) Taxila

2023 – Present

FEATURED PROJECTS

Open Agent Studio

Next.js • TypeScript • React • LangGraph • Prisma • PostgreSQL • Redis • Docker

Visual AI Agent Builder for designing, testing, configuring, and deploying AI agents.

AI Agent Hub

Next.js • TypeScript • PostgreSQL • Prisma • OpenAI • LangChain

Full-stack platform for creating, managing, testing, and deploying AI agents with tools, memory, and API access.

NutriAI Pakistan

React • TypeScript • Tailwind CSS • Firebase • Google Gemini API

AI-powered nutrition planner designed to generate personalized meal plans and nutrition guidance.

HomeVista 3D

React • Three.js • React Three Fiber • Node.js • Express.js

Immersive real-estate explorer with interactive 3D property visualization and modern user experiences.

Aura Atelier

React • TypeScript • Three.js • WebGL • Google Gemini • Google Drive

AI-powered 3D virtual fitting room and styling platform with digital wardrobe management.

InterviewAI

React • Node.js • Google Gemini API • Tailwind CSS • Vercel

AI mock-interview coach that analyzes answers, provides structured feedback, and helps users improve.

FitNova AI

React • AI • Fitness Analytics

AI fitness and wellness platform with intelligent coaching, workout tracking, habits, and health analytics.

Finova AI

React • TypeScript • Express.js • Google Gemini

AI personal finance platform with budgeting, savings goals, transaction tracking, and financial insights.

StudyFlow AI

React • TypeScript • Vite • Express.js • Google Gemini

AI academic companion for note summarization, quiz generation, tutoring, and study progress.

ReelFlow

React • Full-Stack Web Development

Modern short-video social platform with video sharing, authentication, profiles, and mobile-first UX.

LifeHub AI

AI • Full-Stack Development

AI-powered productivity and personal assistant application for task management and daily organization.

Chrono VeloSec Utility Suite

C++

Productivity and utility applications built with C++.

Arcana Console Game Suite

C++

Collection of console-based games developed in C++.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

23+ Professional Certificates across AI, Machine Learning, Cybersecurity, Programming, Marketing, E-Commerce, Project Management, Career Development, and Web Development.

Highlights: Google AI Professional Certificate • NVIDIA: Fundamentals of Machine Learning • NVIDIA: Fundamentals of Deep Learning • Foundations of Project Management — Google • Project Execution: Running the Project — Google • Marketing Analytics Foundation — Meta • Create Your E-commerce Store with Shopify

LEADERSHIP & ACTIVITIES

- **UHP Engineering Team Coordinator — 2026–2027** — Coordinating collaboration, activities, and engineering initiatives.
- **Hostel Mess Secretary & Price Controller — Quaid-e-Azam Hostel, UET Taxila** — Supporting mess management, price monitoring, student concerns, and coordination.
- **Member — Wall of Hope (WOH) Society** — Student welfare, community service, and collaborative initiatives.
- **Member — UET Adventure Club (UETAC)** — Student engagement, teamwork, and university activities.

CAREER OBJECTIVE

To become a Software Engineer specializing in Artificial Intelligence and Full-Stack Development, building scalable AI-powered products, contributing to open-source projects, and developing impactful user-focused solutions.
