

Ali Rashid

AI / AI Agents / Full-Stack Developer

BS Computer Science student at UET Taxila focused on Artificial Intelligence, AI Agents, Full-Stack Development, and interactive 3D web experiences. Experienced in building AI-powered applications, intelligent agents, full-stack systems, and modern interactive web platforms.

EDUCATION

University of Engineering and Technology (UET) Taxila

BS Computer Science | 2025 – 2028

FEATURED PROJECTS

15+ projects completed — selected highlights below.

Open Agent Studio — AI Agent Builder

Built a visual AI agent platform with multi-LLM integration, streaming execution, secure API management, and rate limiting.

CityVerse 3D — Smart City Digital Twin

Developed an interactive Three.js smart-city simulation with traffic, weather, energy, population, and emergency systems.

Earth Explorer — 3D Earth Platform

Created an interactive 3D Earth exploration experience using Three.js with immersive visualization.

HomeVista 3D — 3D Real Estate Platform

Built an interactive 3D property exploration platform using React and Three.js.

FoodVerse 3D — 3D Food Exploration

Developed an immersive 3D food discovery platform combining interactive visualization and modern web technologies.

NutriAI Pakistan — AI Nutrition Platform

Built an AI-powered nutrition platform providing personalized meal and food recommendations.

PUBLICATIONS

Published 10+ technical articles on Medium.

Highlights: Can AI Replace Everything? • CityVerse: Building an AI-Powered 3D Smart City Digital Twin • FoodVerse: 3D Reimagining of Food Exploration • Earth Explorer • Open Agent Studio

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

23+ Professional Certificates across AI, Machine Learning, Cybersecurity, Programming, Marketing, E-Commerce, Project Management, Career Development, and Web Development.

Highlights: Google AI Professional Certificate • NVIDIA: Fundamentals of Machine Learning • NVIDIA: Fundamentals of Deep Learning • Foundations of Project Management — Google • Project Execution: Running the Project — Google • Marketing Analytics Foundation — Meta • Create Your E-commerce Store with Shopify

LEADERSHIP & ACTIVITIES

- UHP Engineering Team Coordinator
- Hostel Mess Secretary — Quaid-e-Azam Hostel
- Member — Wall of Hope (WOH)
- Member — UET Adventure Club (UETAC)

CAREER OBJECTIVE

To become a Software Engineer specializing in Artificial Intelligence and Full-Stack Development, building scalable AI-powered products, contributing to open-source projects, and developing impactful user-focused solutions.

ALI RASHID

AI / AI Agents / Full-Stack
Developer

TECHNICAL SKILLS

Languages:

C++, Python, Java, JavaScript, TypeScript, SQL

Frontend:

React, Next.js, HTML, CSS, Tailwind CSS, Three.js

Backend:

Node.js, Express.js, REST APIs

AI:

Google Gemini API, AI Agents, LangGraph, Machine Learning, LLM Applications

Databases:

PostgreSQL, Prisma, Redis

Tools:

Git, GitHub, Vercel, Netlify, VS Code

CORE STRENGTHS

AI & AI Agent Development
Full-Stack Web Development
3D Web Development
Problem Solving
Software Development
UI/UX & Interactive Experiences
Rapid Learning & Adaptability
Research & Technical Writing
Team Collaboration
Project Development & Deployment

INTERESTS

Artificial Intelligence
AI Agents
Full-Stack Development
3D Web Experiences
Emerging Technologies
Software Innovation
Technical Research
Programming
